Cobham Wireless Business Unit QSHE Policy Statement

Cobham Wireless QSHE Policy statement

Quality, Safety, Health and the Environment

- We are committed to continually improving customer satisfaction, the quality of our products and services and the effectiveness of our Business Management System (BMS). Use of good practice in Continuous Improvement and striving to carry out all activities right first time will underpin this commitment.
- The company BMS is designed to set policies and procedures describing the approach to achieve the desired improvement targets. All employees are required to comply with these policies and procedures in line with our commitment to continuous improvement. All procedures referenced within the BMS are mandatory, unless governed by formally approved deviation.
- A Business Management Framework document will define the complete business context as well as the interested parties aspects, risks and opportunities and their mitigation in order to achieve this policy.
- The Cobham Wireless Management Team has the full responsibility and authority for ensuring the effectiveness of the BMS.
- This policy places the primary onus on the individuals responsible for each activity. This includes ensuring they understand and are capable of achieving their required objectives to ensure that they are continually improving.
- This policy is a commitment to ensuring employee health and safety (H&S) and the impact our business and products have on the environment. This will be achieved through the effective application of our Business values outlined below:

- Continually meet and exceed our customer's expectations in quality, cost and delivery
- Focus on Risk Mitigation effectiveness in order to improve our Business Process Performance
- Achieve differentiation from our competitors so that we are consistently considered as our customers first choice of supplier by being flexible, creative, customer and market driven and achieving greater value for our customers.
- Maintain profitability and viability without compromising the quality of the Company's products and services.
- Continually work on reducing and preventing pollution and its impact in order to protect the environment.
- Comply with regulatory requirements on health and safety, product safety, and environmental aspects wherever we operate
- Uphold all obligations, regularity and statutory compliance as well as internal & external aspects.
- Ensure the health and safety of our employees, stakeholders, partners and customers as a top priority
- Zero harm is our goal
